Dear Andrew

Thank you for taking the time to brief me on the Gold Coast World Surfing Reserve concept.

When you think of surfing in Australia, Queensland's Gold Coast immediately springs to mind. This region has produced many surfing champions over the years and the breaks at Snapper Rocks and Duranbah Beach on either side of the Queensland-NSW State Border are known around the world.

I fully support the establishment of a World Surfing Reserve on the southern Gold Coast and applaud the initiative shown in nominating this iconic region for consideration.

I wish you every success in this venture.

Yours sincerely
